THE KANSAS CONFERENCE IN CLINICAL CHILD AND ADOLESCENT PSYCHOLOGY:  
**TRANSLATING RESEARCH INTO PRACTICE**

---

## WELCOME

Welcome to the University of Kansas for the **2004 Kansas Conference in Clinical Child and Adolescent Psychology**. KU is the home of the Jayhawks, but not of Dorothy and Toto.

Founded in 1854 by anti-slavery groups, Lawrence quickly became a hotbed of "free-state" supporters. Undaunted by the burning of their town by Quantrill's raiders in 1863, Lawrence residents welcomed the establishment of a state university atop Mount Oread in 1865. Lawrence has been the residence of many notables, including John Brown, Langston Hughes, William S. Burroughs, James Naismith, and Comanche.

The University of Kansas has a long tradition of scholarly contribution to child and developmental psychology through its newly named Department of Applied Behavioral Science and in clinical psychology through its Department of Psychology. In the past 13 years, an interdepartmental effort has developed the Clinical Child Psychology Program, using faculty and resources in both departments while bringing in new faculty and students for the graduate training program in the specialty. This conference is a project of the Clinical Child Psychology Program; we hope you will become familiar with our activities and assets while you're here.

The conference is co-sponsored by the Society of Clinical Child and Adolescent Psychology (Division 53 of the American Psychological Association). The division publishes the *Journal of Clinical Child and Adolescent Psychology*, provides programming at the annual convention of the American Psychological Association, and supports task forces and activities on professional issues in child and family mental health services. Membership information will be available at the conference displays.

Additional financial support for this year's conference is provided by the University of Kansas College of Liberal Arts and Sciences. We gratefully acknowledge the college's substantial support, without which the conference fees would be much higher.

We hope you find the conference informative and enjoyable. Our aim is to give you a useful integration of research and practice in clinical child psychology. Please call on the faculty and students of the Clinical Child Psychology Program if you need assistance. They are identified by special emblems.

Sincerely,

## CONFERENCE INFORMATION

### Conference Objectives

1. Provide up-to-date information on research and practice in clinical child and adolescent psychology and mental health services for children and families.
2. Provide specific learning experiences targeted to topics in externalizing disorders, internalizing disorders, therapy and interventions, prevention, and professional issues.
3. Provide opportunities for productive interaction between researchers and practitioners.

### Continuing Education Credits

The American Psychological Association has approved the University of Kansas to offer continuing education credit for psychologists. Certificates of attendance will be issued for each topic session and plenary address to each individual who completes and turns in an evaluation form at the conclusion of the session. Please give your evaluation form and sign-in sheet to the evaluation monitors at the end of each session. They will issue your documentation of attendance.

**Note: Evaluation forms will not be given out or accepted later. Participants are responsible for submitting their evaluation form immediately at the close of a session. We cannot give out certificates for partial attendance at a session.**

### Poster Session

Please visit the poster session in the SpringHill Suites Atrium. A list of poster presenters for each day is located at the back of this program.

### Registration

All conference attendees, including presenters, guests, and participants, must register. A conference badge is required for admission to all conference sessions, meetings, and meals.

### Meals

Continental breakfast will be available in the conference area between 7:30 and 8:15 a.m. Friday and 7:30 and 8:30 a.m. Saturday. Lunch will be provided on Saturday as part of your registration fee.

### Reception

The KU Clinical Child Psychology Program will host two receptions with poster sessions. Please join us from 7:00 to 10:00 p.m. Thursday, October 21, and from 5:00 to 7:00 p.m. Friday, October 22, at the SpringHill Suites.

### What to Do in Lawrence

Lawrence has lots of nonpsychology diversions! Check out the Lawrence Convention and Visitors Bureau *Official Visitor's Guide* in your conference packet for information about local restaurants, shopping, museums, and entertainment. A CCPP Student Restaurant Guide sheet has also been added for your convenience.
