CURRENT COURSE PREPARATIONS

Pediatric Health and Health Promotion (ABSC 529). An undergraduate seminar on the application of psychological theory and practice to pediatric illness and health promotion.

Psychosocial Aspects of Death and Dying (ABSC 519). An undergraduate seminar that exposes students to the historical and current cultural, psychological, spiritual/religious, and practical/legal perspectives of death and dying, with particular attention to how mental health professionals interface with systems of care to address loss across multiple developmental levels.

Pediatric Psychology (ABSC 705). Graduate seminar covering conceptual and applied issues related to clinical child psychology and the promotion and maintenance of children's health.

Professional Ethics in Clinical Psychology (PSYC 975). Graduate survey of interprofessional relationships, case security, legal aspects of clinical psychology, ethical code of practice, and problems in the clinical practice of psychology. Issues involving ethics in research will also be explored.

Therapeutic Interventions for Children (ABSC/PSYC 976). Survey of clinical approaches to the therapeutic treatment of children, adolescents, and families, with special emphasis on research findings related to clinical outcomes. Clinical approaches covered include behavioral, cognitive-behavioral, systemic, family, traditional, and pharmacological treatments.
